

SMP AUDIO & VISUAL SERVICES

THE GUITAR HOTEL

The Seminole Hardrock Hotel and Casino Hollywood is pleased to have Seminole Media Productions as the preferred audio visual provider for our clients. SMP has provided outstanding service for conventions, meetings, and special events throughout Florida for 10 plus years. With a complete line of basic and specialized audio, video and lighting equipment, along with professionally trained technicians, SMP can help provide a successful event of any size or technical complexity.

The SMP team of professionals work as an extension of the Hotel's sales and operations staff to ensure a seamless experience for your organization and attendees.

Reviews:

"SMP were outstanding from start to finish, I could not have asked for a better AV team." - QuestMark

"Thank you for your patience & calm throughout this planning process. We couldn't have done this w/o you! Look forward to working together again."

– ACC South Florida

"I wanted to thank you for helping to make my Miss Indian World outgoing go as smoothly and beautifully as it did. I really appreciate all your help and patience."

– Cheyenne K.

"You are a stand out not only for your job excellence, but for always being positive and making our event fun. You did just what we needed and led team very well. Great spirit!" – Puro C.

"The A/V team was outstanding. Crew were so responsive and made sure everything went off without a hitch. When we ran into any technical problems (mostly user error, lol) they responded immediately." – Cathy L.

"We cannot thank enough the entire Seminole Media Productions team for suggesting and executing. You really took us up a level and raised expectations for the Alliance moving forward." – Gail B.

"Thank you for the detailed support, planning & execution of our 2021 marketing summit. This challenging summit was a success thanks to your collaboration & efforts." – Kathryn B. & Joe S.

"You guys rock! Keep the good moments coming." – Mark T.

Production Guidelines For Seminole Hard Rock Hotel & Casino

Provisions For Using Outside Production Companies

By selecting to utilize another audio visual company, strict guidelines are to be followed to conduct business within the Seminole Hard Rock Hotel. As such, your outside production company is expected to adhere to all mandatory guidelines required of our in-house provider, Seminole Media Productions. These provisions will ensure the success of your event.

These guidelines are as follows:

SMP will provide an Audio Visual Liaison to supervise the load-in, set-up, tear-down, and load-out phases of your event. The Liaison will also be the main contact for your audio visual provider throughout your entire event. The Liaison will interface with both your audio visual company and the Hotel to ensure proper communications between all parties in order to deliver a successful event. This service fee will be charged to the master account at a rate of \$500 per four hour shift (plus tax).

The client will notify the Hotel, in writing, 30 days prior to the event, of their preferred audio visual provider.

A certificate of insurance evidencing general liability coverage is required from the outside audio visual company. Please refer to the Seminole Hard Rock's Sales contract for specific requirements.

All cords, wires, cables and equipment must be safely secured. All equipment must be placed in compliance with all applicable occupancy, OSHA and Seminole Tribe of Florida Fire regulation codes.

For the protection of all carpeted areas, Visqueen is required where road/equipment cases or where an electric motorized personnel lift is utilized. To ensure that your outside audio visual company adheres to this requirement, a deposit charge of \$750 for the load-in and \$750 for the load-out will be automatically added to your Seminole Media Productions invoice. Should your outside audio visual company adhere to this requirement, then the \$750 load-in and \$750 load-out carpet protection charge will be waived from your invoice. Please note, this deposit charge does not cover any of the costs associated with any damages caused by your outside audio visual company.

The Hotel or SMP will not be responsible for lost, damaged, stolen or misused equipment obtained from outside audio visual rental operations. In addition, the Hotel or SMP will not be held liable for any damages occurred by outside audio visual rental operations.

Storage space for outside audio visual equipment is the sole responsibility of the outside audio visual company. Due to Seminole Tribe of Florida Fire codes, storage of any equipment in back hallways is strictly prohibited. The Hotel may have limited storage space available, but is under no obligation to provide such space.

To protect the quality and integrity of our in-house systems, outside audio visual companies are NOT permitted to patch into our house sound or projection systems. The client must contract separate audio and video equipment from the outside audio visual company for all meeting rooms requiring audio and video support.

To maintain quality and to protect the Hotel, its clients and guests, outside audio visual companies are NOT permitted to hang any equipment from the in-house Hang/ Fly points or other structural supports built into the facility.

For liability considerations, SMP will qualify and provide all rigging equipment from the motor up, and will provide rigging labor to hang and secure rig. A finalized rigging plot must be submitted for approval to SMP at least 30-days prior to load-in. The rigging plot must include load requirements and any other additional information required to qualify the proposed rigging needs.

For the consideration of other guests and/or attendees of the hotel, the SHRHC retains the right to require the immediate cessation or reduction of noise determined to be a nuisance or otherwise interfering with the enjoyment of the hotel by guests or other groups. Such noise is to be determined by the Hotel and its liaisons and includes but not limited to music for set-up/tear-down crews, offensive or profane speech or music at any time, excessive volume testing which interferes with other functions in proximity, etc.

These guidelines are in place to help to ensure that you have a successful event at the Seminole Hard Rock Hotel and Casino. These provisions are exclusive of Additional Production Company Guidelines that will be sent to you and your production company after we receive the production company's contact information. As a representative and in cooperation with the Hotel, Seminole Media Productions will participate in ensuring compliance with the stipulations listed above.

Thank you for selecting the Seminole Hard Rock Hotel and Casino Hollywood. We look forward to working with you towards a very successful event.
