Production Guidelines For Seminole Hard Rock Hotel & Casino

Provisions For Using Outside Production Companies

By selecting to utilize another audio visual company, be advised that there are guidelines to be followed to conduct business within the Seminole Hard Rock Hotel. As such, your outside production company is expected to adhere to all mandatory guidelines required of our in-house provider, Seminole Media Productions. These provisions will ensure the success of your event and that there are no surprises for you or your attendees. These guidelines are as follows:

- SMP will provide an Audio Visual Liaison to supervise the load-in, set-up, tear-down, and load-out phases of your event. The Liaison will also be the main contact for your audio visual supplier throughout your entire event. The Liaison will interface with both your audio visual company and the Hotel to ensure good communications between all parties in order to deliver a successful event. The fee for this service will be charged to the master account at a rate of \$500 per four hour shift (plus tax).
- The client will notify the Hotel in writing, 30-days prior to the start of the meeting, who their audio visual provider will be.
- A certificate of insurance evidencing general liability coverage is required from the outside audio visual company. Please refer to the Seminole Hard Rock's Sales contract for specific requirements.
- All cords, wires, cables and equipment must be safely secured. All equipment must be placed in compliance with all applicable occupancy, OSHA and Seminole Tribe of Florida Fire regulation codes.
- For the protection of all carpeted areas, Visqueen is required where road/equipment cases or where an electric motorized personnel lift is utilized. A \$750.00 deposit per load-in/load-out will be applied to your quote.
- Storage space for outside audio visual equipment is the sole responsibility of the outside audio visual company. Due to Seminole Tribe of Florida fire codes, storage of any equipment in back hallways is strictly prohibited. The Hotel may have limited storage space available, but is under no obligation to provide such space.
- The Hotel or SMP will not be held liable for lost, damaged, stolen or misused equipment obtained from outside audio visual rental operations.
- To protect the quality and integrity of our in-house systems, outside audio visual companies are NOT permitted to patch into our house sound or projection systems. The client must contract separate audio and video equipment from the outside audio visual company for all meeting rooms requiring audio and video support.
- To maintain quality and to protect the Hotel, its clients and guests, outside audio visual companies are NOT permitted to hang any equipment from the in-house Hang/ Fly points or other structural supports built into the facility
- For liability considerations, SMP will qualify and provide all rigging equipment from the motor up, and will provide rigging labor to hang and secure rig. A finalized rigging plot must be submitted for approval to SMP at least 30-days prior to load-in. The rigging plot must include load requirements and any other additional information required to qualify the proposed rigging needs.
